Extruder Bootcamp with Mari O'Dell

Seed Pod and Tassel Blossom earrings
Overcoming the "Fear of Flying" or
' saved my creative life and what it can do for you !

2 day Workshop - March 28th and 29th 2015
\$180.00

Here's what Mari has to say about this inspiring workshop

I will jump-start the folks who have never or seldom used this wonderful tool.

I will introduce my technique for saving your hands. How to adapt all kinds of disks for use with the A.C.E. and P.C.E. extruders (my extruder of choice, although we will also work with other extruders) Other bits and bobs I use with my extruder. Participants will create petal support stands , paddle accents and use a blossom cheat sheet to form the earring form.

We will create two patterned plugs for extrusion. Various disk designs will be available for use in class.

Participants should expect to complete one set of earrings of each design during the workshop. This workshop just touches on all the wonderful things the extruder can do...you are only limited by your imagination.

Samples of these earrings were featured August 25, 2014 on Polymer Clay Daily
<http://polymerclaydaily.com/2014/08/22/the-new-black-in-polymer/>

More of my work can be see on my Facebook site :Mari O'Dell and on my web site www.mari-odell.com

Mari O'Dell lives in Annapolis, Maryland with her sax-playing poet husband, mellow black lab, Sachi and silver -Tabby kitten,Marlowe. Avoiding housework by lots of studio time and gardening. Mari has been a long time studio artist, teacher, author and innovator. In the later role she has expanded the use of the extruder in ways no one else has. She has designed detailed disks for the Artway extruder and developed the patterned plug extrusion technique. Her design work extends to impression plates, silk screen designs and mixed media tools.

\$25 Deposit by individuals required. Check, Paypal or cash accepted. No Refunds given after two weeks before class date. Balance due two weeks before workshop begins.
